

UNDERSTAND YOUR COMMUNITY

View 250 demographics variables to learn more about the distribution of your community's population.

EXPLORE HEALTH NEEDS

View 300+ health and quality of life indicators to explore health factors and outcomes in your community, make comparisons to other locations, trends over time, and HealthyPeople 2030 objectives.

PRIORITIZE NEEDS

Use the SocioNeeds Index Suite® and Disparities Dashboard to identify under-resourced communities/areas for shared action and health disparities.

VISUALIZE DATA

Tell the story of your community's health by creating custom reports, custom dashboards, and downloading maps or charts.

TAKE ACTION

Access promising practices, funding opportunities, and other resources, to assist with community health improvement efforts.

INFLUENCE CHANGE

Use data, tools, and resources available through healthyneo.org for: reports and presentations, needs assessments and improvement plans, grant proposals, and connecting with decision makers or community leaders to impact policies.
